90-90-90 Targets Workshop

July 22-23, 2017 • Paris

Sponsored by

In partnership with

“People cannot achieve their fullest health potential unless they are able to take control of those things which determine their health.”

--World Health Organization,
Ottawa Charter for Health Promotion (1986)

The GIPA Principle is...

The Greater Involvement of People Living
with HIV or AIDS

GIPA Report Card, GNP+

GIPA means meaningfully involving people living with HIV in the programmatic, policy and funding decisions and actions that impact on our lives by ensuring that we participate in important decisions.

The Denver Principles (1983)

"We condemn attempts to label us as 'victims,' a term which implies defeat, and we are only occasionally 'patients,' a term which implies passivity, helplessness, and dependence upon the care of others. We are people with AIDS."

Paris Declaration (1994)

“We, the Heads of Government or Representatives of the 42 States assembled in Paris on 1 December 1994:

...

Support a greater involvement of people with HIV/AIDS ...
[b]y **ensuring their full involvement in our common response to the pandemic at all national, regional and global levels**, this initiative will, in particular, stimulate **the creation of supportive political, legal and social environments.**“

GIPA at the United Nations

The GIPA Principle is a commitment made by the governments of the world to full inclusion of people living with HIV in decision-making that affects us.

Adopted by the:

- **United Nations General Assembly Special Session on HIV/AIDS, 2001**
- **United Nations High-Level Meetings on HIV/AIDS, 2006, 2011, 2016**

The 2016 Political Declaration calls for all of the following for people living with HIV and for key populations:

- Realisation of the GIPA principle for greater and meaningful involvement in the HIV response;
- Protection of human rights for all ages;
- Recognition of the right to equal participation in civil, political, social, economic and cultural life;
- Empowerment to know one's rights and to access justice and legal services to prevent and challenge violations of human rights; and
- Removal of prejudice, stigma, or discrimination.

First Responders: SOS Venezuela

Venezuela

GIPA across the 90s

Prevention | Care | Viral Suppression | And beyond

- Participatory Planning and Budgeting
- Community-led Services (where desired and appropriate)
- Community Advisory Boards
- Systems for Influence

Core support for PLHIV and other KP networks at global, regional, and local levels

Community Engagement

- The four “Hows”:
 - How to ensure **influence** by PLHIV and affected communities?
 - How to involve a **diversity** of ages, experiences, genders, and key populations?
 - How to support **capacity**-building?
 - How to create **sustainability** for the community-led response?

“Once social change begins, it cannot be reversed.

You cannot un-educate the person who has learned to read.

You cannot humiliate the person who feels pride.

You cannot oppress the people who are not afraid anymore.”

- Cesar Chavez

In loving memory of Prudence Mabele
