2019 -2023 Testing activities of Bergamo FTCl

Year	N. Testing Services	N.° Checkpoint Openings	N.° Mobile Testing activities	N.° Widespread testing activities (BGLNOB Project)	People Tested
2019 (May - December)	14	0	14	0	700
2020 (June - December)	43	42	0	1	547
2021	90	67	7	15	1315
2022	143	64	17	62	1967
2023	260	56	35	169	2715

2019 -2023 Testing activities of Bergamo FTCI

May 2019 – December 2023

- 550 testing events
- 7244 people for HIV, HCV and Syphilis
- 22 new diagnoses for HIV (0.31%), 30 for HCV (0.44%) and 29 for Syphilis (0.43%)

Testing among general and vulnerable population

Period: October 2022 to February 2024

**Reactivity Incidence STIs
(HIV, HCV and Syphilis)**
(october 2022 - february 2024)

**Test on Vulnerable Population
(BGLNOB project)**

20 reactivities of 343 test = 5,83%

9 HIV+ = 2,6%
6 HCV+ = 1,7%
5 SYPHILIS+ = 1,5%

Test on general population

14 reactivities of 3113 test = 0,44%

2 HIV+ = 0,06%
2 HCV+ = 0,06%
10 SYPHILIS+ = 0,32%

Conclusion

Goal → 95-95-95 OMS

WHAT WE ARE DOING AND CONTINUE TO DO:

Testing activities:

- **Reach the undeclared** → specific activities among vulnerable and key populations
- **Generate awareness** → activities among general population and young people

Sensibilization activities:

- Spread informations about STIs
- Talk about Sexual Health

Win the fight against HIV/AIDS

→ Young people receive informations and generate informations ←

«Look well, we are the same»

Thank you!
